

The School of Loss Control Technology

A World of Knowledge

NIGHT CLASSES – 2010 – September 7th – November 23rd, 2010 - ON
Building Construction, Fire Protection and Basic Hazards – A-1

Did you know:

In 2008, The School of Loss Control Technology added Night Classes to its roster. The first was the Building Construction, Fire Protection and Basic Hazards –A-1 course. The course was successfully presented over the period and by popular demand the A-1 evening course will be offered again this year in twelve three-hour sessions with mid-term and end of term examinations. The course will commence on Tuesday, September 7th and will run every Tuesday until November 23rd. Classes will be held in Ontario at a location to be advised later.

Students scoring a mark of 60% or above, will have to challenge the Insurance Institute examination to get the C36 towards their CIP program.

PLEASE ASK FOR FURTHER DETAILS

Adding night classes to The School roster will greatly benefit students by allowing a flexible option for those individuals who cannot dedicate a full working week for training.

Topics covered include:

- Basic Terms and Construction Types
- Heating Systems, Fuels and Controls
- Basic Electricity
- Flammable Liquid Storage and Handling
- Automatic Smoke and Heat Detection
- Introduction to Automatic Sprinklers

You will:

- Learn how to easily recognize construction types based on identifiable features
- Become familiar with heating controls, fuel types and chimneys
- Learn about basic electricity, wiring and overcurrent protection
- Learn how protection systems control or extinguish fires

Instructors:

All of our instructors have many years of experience in their relevant field of expertise.

The courses have been developed and implemented by the actual instructors based on standards, industry rules and regulations and their own professional experiences.

Our courses are practical, hands on and allow the student to return to their profession fully equipped with the skills acquired within the course.

The practical information derived from this course will improve your understanding of risk analysis and provide you with essential information that you can apply on a day-to-day basis, whether you are involved in claims, underwriting or loss prevention.

Fees:

\$875 plus applicable taxes

Registration:

Simply fax the registration form on the reverse to The School at (905) 695-6543 or call **Yvonne Lincoln 905 882-6300** or toll free (800) 268-8080. Confirmation will be sent via mail immediately.
