RENEWAL APPLICATION FOR NUCLEAR ENERGY LIABILITY SUPPLIER'S AND TRANSPORTERS POLICY FORM

INSURED:

POLICY #:

1. List any new subsidiaries (both domestic and foreign) in which the applicant has a majority interest that have acquired in the last 12 months. (This list should include the principal business activity, products and services of each).

2. Total annual sales (both gross and nuclear) projected for the current and next calendar year (include sales of subsidiaries listed above):

3. With respect to any new subsidiaries listed under #1:

- a) Has the applicant sold reactors, reactor components or support equipment, reactor fuel or engineering services to reactor operators? If so, please provide the particulars.

- b) Description of the principal products or services (other than those described in (a) above) sold which may have nuclear application.

- c) If there are no such specifically designed products, describe those products sold which may be reasonably expected to be used in a nuclear facility and include an estimate of the annual sales of each product.

4. List the types of nuclear facilities to which the products or services described above are sold.
