Special Hazards and Processes

***Effective August 1, 2009, Students will have to challenge the Insurance Institute examination to obtain a credit (C37) towards their CIP program.**

PLEASE ASK FOR FURTHER DETAILS

Did you know:

Corn starch and coffee whitener can be fuel for explosions.

Our student success rate is over 90%.

The School has over 40 years providing quality instruction.

We are offering a four and a half day course that will explain many of the hazards found in industry today. You will review different types of industrial processes, learn how to assess various associated hazards and gain insight into effective methods of protecting against costly losses. The knowledge gained in risk assessment and loss control will assist you in improving underwriting profitability. Those who would benefit most would include fire protection engineers, loss prevention inspectors, insurance underwriters, brokers and risk managers.

Topics covered include:

- Heating and Cooling Equipment
- Static and Lightning
- Dusty Occupancies
- Liquified Petroleum Gases
- Flammable Liquid Occupancies

You will:

- Learn about the use, operating hazards and safeguards of heating and cooling equipment
- See through discussion and demonstration the hazards associated with static and lightning
- Become familiar with the hazards associated with dusty occupancies and their methods of control
 - Learn about L.R gases such as propane and butane including their characteristics and hazards

Instructors:

All of our instructors have many years of experience in their relevant field of expertise.

The courses have been developed and implemented by the actual instructors based on standards, industry rules and regulations and their own professional experiences.

Our courses are practical, hands on and allow the student to return to their profession fully equipped with the skills acquired within the course.

Accreditation:

- Insurance Institute of Canada – C37*
- RIBO – 12 hours Technical
- Insurance Council of BC – 24 hours Technical
- Supported by the Canadian Fire Safety Association
- Approved by Building Owners and Managers Institute International Inc. (BOMI)
- Ministry of Alberta Finance – 24 hours General, Adjusters Certificate
- CHAD – 20 hours Technical, 4 hours legal

Fees:

\$875 plus HST.

Registration:

Simply fax the registration form on the reverse to The School at **(905) 695-6543** or call **Yvonne Lincoln at 905 882-6300** or toll free (800) 268-8080. Confirmation will be sent via email immediately.
